

Consumer-driven health

Interactive member tour

A UnitedHealthcare Company

UMR's consumer-driven health plans member tour is a helpful, interactive tool to inform members about HRAs, HSAs and FSAs. It also explains what role health and wellness can play in a member's health care experience and provides information about customer support options.

Here's a sampling of what a member will encounter:

The Welcome Center allows the viewer to find out more about a variety of topics by clicking on the map markers. Viewers have the ability to navigate back to this page at any time by clicking "Welcome Center" in the bottom navigation bar.

Clicking on Consumer Accounts in the bottom navigation bar or from the Welcome Center gives viewers a choice to explore more about either HRAs or HSAs.

The HRA section uses easy-to-understand illustrations to give the viewer in-depth information on how HRA plans work.
