

# Your 2015 Prescription Drug List

Effective January 1, 2015

**Please read:** This document contains information about the drugs covered under your pharmacy benefit plan.

---

## For a complete list of covered drugs or if you have questions:

Call the toll-free member phone number on the back of your ID card.

Visit **optumrx.com**

- Locate a participating retail pharmacy by zip code.
- Look up possible lower-cost medication alternatives.
- Compare medication pricing and options.

## Your Prescription Drug List

This Prescription Drug List (PDL) outlines the most commonly prescribed medications from your plan's complete pharmacy benefit coverage list, also known as a formulary. A formulary identifies the drugs available for certain conditions and organizes them into cost levels, also known as tiers. An important part of the PDL is giving you choices so you and your doctor can choose the best course of treatment for you.

### Go to [optumrx.com](https://www.optumrx.com) for complete and up-to-date drug information

Since the PDL may change, we encourage you to visit our website, [optumrx.com](https://www.optumrx.com). This website is the best source for up-to-date information about all of the medications your pharmacy benefit covers, possible lower-cost options, and cost comparisons.

The screenshot displays the OptumRx website interface. At the top right, there are navigation links: Home, Log Out, John Smith, My Messages (0), and My Cart (0). Below this is a main navigation bar with links for My Prescriptions, My Account, Order Medical Supplies, Health Store, Specialty Pharmacy, Health Tools, Customer Service, and What's New. A secondary navigation bar includes Order Status, Manage Account, Real Time Benefits, My Formulary, and Household/Caregiver Access.

The main content area is titled "View Accounts" and "Welcome John Smith". It features a dropdown menu for "JOHN SMITH" and a prominent orange "ORDER STATUS" button. Below this, a message states "You have no orders within the last 30 days." with a "View All Orders" link. A list of menu items includes "MANAGE ACCOUNT", "REAL TIME BENEFITS", and "MY FORMULARY".

On the right side, there is a sidebar with a search bar and a "Help" link. Below the search bar, the cart is shown as "Cart (0) \$0.00". The sidebar menu includes "Drug Pricing", "Drug Lookup", "Formulary" (which is highlighted with an orange border and an orange arrow pointing to it from the right), "Real Time Benefits", and "Locate a Pharmacy". At the bottom of the sidebar, there is a "GO" button and a link to "Advanced" search options.

## At OptumRx, we want to help you better understand your medication options.

Your pharmacy benefit offers flexibility and choice in determining the right medication for you. To help you get the most out of your pharmacy benefit, we've included some of the most commonly asked questions about the Prescription Drug List.

### **What is a Prescription Drug List (PDL)?**

This document is a list of commonly prescribed medications preferred by your plan sponsor for their safety, cost and effectiveness. Drugs are listed by common categories or class. They are placed into cost levels known as tiers. It includes both brand and generic prescription medications approved by the U.S. Food and Drug Administration (FDA).

**Please note:** Where differences are noted between this PDL and your benefit plan documents, the benefit plan documents will rule. It is not intended to be a complete list of medications, and not all medications listed may be covered under your plan. Please look at your benefit plan documents provided by your employer or plan sponsor to see what medications are covered under your plan. You may also log on to **optumrx.com** or call the toll-free member phone number on the back of your ID card for more information.

### **How do I use my Prescription Drug List?**

When choosing a medication, you and your doctor should consult the PDL. It will help you and your doctor choose the most cost-effective prescription drugs. This guide tells you if a medication is generic or brand, and if special rules apply. Bring this list with you when you see your doctor. It is organized by common medical conditions. Medications are then listed alphabetically.

If your medication is not listed in this document, please visit **optumrx.com** or call the toll-free member phone number on the back of your ID card.

## What are tiers?

Tiers are the different cost levels you pay for a medication. Each tier is assigned a cost, which is determined by your employer or plan sponsor. This is how much you will pay when you fill a prescription. Tier 1 medications are your lowest-cost options. If your medication is placed in Tier 2 or 3, look to see if there is a Tier 1 option available. Discuss these options with your doctor.

Drug names shown in **orange** are preferred for their cost and effectiveness. If there is a **i** symbol in the Drug Tier column, check your benefit plan documents to find out your specific pharmacy plan costs.

\$	Drug Tier	Includes	Helpful Tips
	<b>Tier 1 Lowest Cost</b>	Lower-cost, commonly used generic drugs. Some low-cost brands may be included.	Use Tier 1 drugs for the lowest out-of-pocket costs.
	<b>Tier 2 Mid-range Cost</b>	Many common brand-name drugs, called preferred brands.	Use Tier 2 drugs, instead of Tier 3, to help reduce your out-of-pocket costs.
	<b>Tier 3 Highest Cost</b>	Mostly higher-cost brand drugs, also known as non-preferred brands.	Many Tier 3 drugs have lower-cost options in Tier 1 or 2. Ask your doctor if they could work for you.

**Please note:** Some plans may have two or four tiers, while others may not have any. If you have a high deductible plan, the tier cost levels will apply once you hit your deductible. Refer to your enrollment and plan materials on **optumrx.com**, or call the toll-free member phone number of the back of your ID card for more information about your benefit plan.

## When does the Prescription Drug List change?

- Medications may move to a lower tier at any time.
- Medications may move to a higher tier when its generic becomes available.
- Medications may move to a higher tier or be excluded from coverage on January 1 or July 1 of each year.

When a medication changes tiers, you may have to pay a different amount for that medication.

For the most up-to-date list, call customer service at the toll-free member phone number on the back of your ID card.

## Programs and Limits

Some medications are noted with letters or symbols next to them. The letters and symbols refer to our pharmacy benefit programs and are provided to help you check which medications may have a program or limit. Your benefit plan determines how these medications may be covered for you.

<b>PA</b>	<b>Prior Authorization</b> – Your doctor is required to provide additional information to determine coverage.
<b>ST</b>	<b>Step Therapy</b> – Trial of lower cost medication(s) is required before a higher-cost medication is covered.
<b>QL</b>	<b>Quantity Limits</b> – Amount of medication covered per copayment or in a specific time period.
<b>AR</b>	<b>Age Restrictions</b> – Some restrictions may apply based on patient age.
<b>SP</b>	<b>Specialty Medication</b> – Medication is designated as a specialty pharmacy drug.
<b>GR</b>	<b>Gender Restrictions</b> – Some restrictions may apply based on gender.

To learn more about a pharmacy program or to find out if it applies to you, please visit [optumrx.com](https://www.optumrx.com) or call the toll-free member phone number on the back of your ID card.

## Why are some medications excluded from coverage?

Medications may be excluded from coverage under your pharmacy benefit when it works the same as or similar to another prescription medication or an over-the-counter (OTC) medication. There may be other medication options available.

## What if I don't agree with a decision about an excluded medication?

You (or your authorized representative) and your doctor can ask for an initial coverage decision by calling the toll-free member phone number on the back of your ID card.

## Should I talk to my doctor about OTC medications?

An OTC medication may be the right treatment option for some conditions. Talk to your doctor about available OTC options. Even though these medications may not be covered under your pharmacy benefit, they may cost less than your out-of-pocket expense for prescription medications.

## What is the difference between brand-name and generic medications?

Generic medications contain the same active ingredients (what makes the medication work) as brand-name medications, but they often cost less. Once the patent of a brand-name medication ends, the FDA can approve a generic version with the same active ingredients. These types of medications are known as generic medications. Sometimes the same company that makes a brand-name medication also makes the generic version.

## Is it a generic or brand-name drug?

The drug list shows **brand-name** drugs in **bold** type (for example, **Coumadin**) and generic drugs in plain type (for example, Warfarin).

## What if my doctor writes a brand-name prescription?

The next time your doctor gives you a prescription for a brand-name medication, ask if a generic equivalent or lower-cost option is available and if it might be right for you. Generic medications are usually your lowest-cost option, but not always. Visit [optumrx.com](http://optumrx.com) to make sure.

## Are you taking a specialty medication?

Specialty medications treat rare or complex conditions and are typically higher cost medications. Please note, not all specialty medications are listed in the PDL.

OptumRx is the specialty pharmacy that can provide most of your specialty medications along with helpful programs and services. Call OptumRx® Specialty Pharmacy at **1-888-702-8423** and have your prescriptions delivered right to your home or office.

## How do I get updated information about my pharmacy benefit?

Since the PDL may change during your plan year, we encourage you to visit **optumrx.com** or call the toll-free member phone number on the back of your ID card for more current information.

When you register at **optumrx.com** and open an account, you can use the website's helpful tools and features to:

- Look up the price of drugs covered by your plan
- Find lower-cost options
- Refill and renew mail service prescriptions
- View your order status and claims history
- Sign up for text reminders to take and refill your medicine
- View your benefits in real time
- Order medical supplies
- Shop for health and wellness products

### More information

If you have additional questions please call customer service, 24 hours a day, 7 days a week using the toll-free member phone number on the back of your ID card. Or visit **optumrx.com**.

## “My Medications” worksheet

Take this worksheet with you each time you visit a doctor. Each of your doctors should be aware of every drug you take and you should have a list as well.

Name of Medicine and Strength	Drug Tier	I Take This Medicine For	Directions	Doctor
Example: Lisinopril, 20 mg	Tier 1	High blood pressure	One tablet daily	Dr. Johnson

OptumRx specializes in the delivery, clinical management and affordability of prescription medications and consumer health products. We are an Optum™ company — a leading provider of integrated health services. Learn more at **optum.com**.
